Break the Limits of Data and Analytics with X-Sight: Autonomous Financial Crime Management Platform-as-a-Service

X-Sight

Accelerate innovation with a new level of agility in provisioning infrastructure.

"Best-of-breed" meets the stability of an enterprise-grade platform.

A true financial crime hub means the first steps toward a financial crime marketplace.

Break Free of Traditional Release Cycles to Accelerate Your Solutions

- **Today** you can augment your Actimize solution capabilities with choice in advanced analytics and data. You can build your own machine learning models, or opt for a fully managed analytics-as-a-service solution.

- **Later,** complement your on-premise solutions with X-Sight native applications, powered by the any-data, any-analytics environment. You'll see cross-domain solutions, which dynamically link any source of data to entities for a total view of risk.

- **Finally,** X-Sight will transform your portfolio with an everything-in-the-cloud approach, all tailored to meet your needs, at your own pace.

Take the First Steps to the Financial Crime Management Marketplace

The possibilities are endless
X-Sight offers boundless data from any source, limitless analytics and intelligent automation while leveraging the cloud. The platform provides users with the choice and elasticity needed to scale.

Experience agility
You can build your own data-driven machine learning in the cloud – with simple citizen data scientist tools, creating models takes hours instead of days. Allow us to manage your analytics, delivering simple, optimized models without burdening your staff.

Seamless integration
The benefits of open APIs and SDKs allow for easy integration of data and the ability to gather collective intelligence. Custom build your solution with your choice of microservices.
