

NICE Actimize Achieves FinTech Breakthrough Award for Innovation in Wealth Management Surveillance and Compliance

The SURVEIL-X AI-driven cloud solution automates global compliance processes, leveraging NICE Actimize's communications surveillance, as well as sales practices and suitability capabilities

Hoboken, N.J., April 5, 2021 – NICE Actimize, a NICE (Nasdaq: NICE) business today announced that its [SURVEIL-X Suitability for Wealth Management](#) solution has been named the winner of the 2021 "Wealth Management Innovation" award by [FinTech Breakthrough](#), an independent organization that recognizes the top companies, technologies and products in the global FinTech market. NICE Actimize [SURVEIL-X Suitability](#) is an integrated, turnkey solution that addresses global sales practices and suitability regulations including MiFID II, FINRA Rule 2111 and 3110, Dodd-Frank, IROC 1300 and many others. This is the third consecutive year that The FinTech Breakthrough Awards program recognized NICE Actimize's achievements in cutting-edge financial crime risk management solutions.

As global regulatory bodies stepped up enforcement of investment suitability regulations to ensure firms and their advisors are acting in the best interest of their customers, NICE Actimize SURVEIL-X Suitability further enhanced its Conduct Risk solution. NICE Actimize introduced new flexible client review and best alternative investment models, integrated communications surveillance, and enhanced investigative tools to enable firms to align compliance programs with changing business models and business requirements, while also driving down costs by automating investment suitability compliance processes.

At the heart of the SURVEIL-X Suitability solution is its innovation in addressing 2020's Regulation Best Interest rule that was recently launched in the United States. A multi-faceted regulation, Reg BI imposed a number of obligations on broker-dealers, including requirements to provide timely disclosures to retail clients; exercise diligence (care) in making investment recommendations in line with each client's best interest; and maintain and enforce compliance procedures.

"As a comprehensive, integrated solution, NICE Actimize's SURVEIL-X Suitability automates compliance processes so they're easier to manage, and helps firms meet various obligations under sales practice and suitability regulations such as Reg BI in the US. We thank FinTech Breakthrough for recognizing our innovation," said **Chris Wooten, Executive Vice President, NICE**.

"Once again, we were thrilled to recognize NICE Actimize as a leading innovator distinguishing itself with its SURVEIL-X Suitability for Wealth Management solution. Congratulations to the NICE Actimize financial markets compliance team for this well-deserved industry recognition," said **James Johnson, Managing Director, FinTech Breakthrough**. "Reg BI was the most significant change to suitability regulations in the United States in the past twenty years, and we were pleased to award NICE Actimize's innovation and support for broker-dealers in addressing the enormous compliance burden these regulations foster."

Forward-Looking Statements

This press release contains forward-looking statements as that term is defined in the Private Securities Litigation Reform Act of 1995. Such forward-looking statements, including the statements by Mr. Wooten, are based on the current beliefs, expectations and assumptions of the management of NICE Ltd. (the "Company"). In some cases, such forward-looking statements can be identified by terms such as "believe," "expect," "seek," "may," "will," "intend," "should," "project," "anticipate," "plan," "estimate," or similar words. Forward-looking statements are subject to a number of risks and uncertainties that could cause the actual results or performance of the Company to differ materially from those described herein, including but not limited to the impact of changes in economic and business conditions, including as a result of the COVID-19 pandemic; competition; successful execution of the Company's growth strategy; success and growth of the Company's cloud Software-as-a-Service business; changes in technology and market requirements; decline in demand for the Company's products; inability to timely develop and introduce new technologies, products and applications; difficulties or delays in absorbing and integrating acquired operations, products, technologies and personnel; loss of market share; an inability to maintain certain marketing and distribution arrangements; the Company's dependency on third-party cloud computing platform providers, hosting facilities and service partners; cyber security attacks or other security breaches against the Company; the effect of newly enacted or modified laws, regulation or standards on the Company and our products and various other factors and uncertainties discussed in our filings with the U.S. Securities and Exchange Commission (the "SEC"). For a more detailed description of the risk factors and uncertainties affecting the company, refer to the Company's reports filed from time to time with the SEC, including the Company's Annual Report on Form 20-F. The forward-looking statements contained in this press release are made as of the date of this press release, and the Company undertakes no obligation to update or revise them, except as required by law.
